Market Days in Chianti

It's all part of the fun! Strolling the quaint streets and piazzas of the many little towns in Chianti and being able to visit the **fresh food markets** to find just the right ingredients to accompany your new bottle of wine or to start experimenting with the culinary delights. Local markets have much more than just food: you will find a diverse range of local vendors with homewares including ceramics, linens and gadgets, clothing vendors with some styles at affordable prices and artisans with **handmade arts and gift items**. When the markets are not located in the main square – or there are several options, we have indicated an address.

Be sure to check out the times and days of the markets below so you that can add one (or more) to your vacation itinerary.
